CRIMS SAFE CLASSIC DOORS

Technical Info

Mesh

Crimsafe Classic feature Crimsafe Tensile-Tuff® Security Mesh, which is made of 0.9mm 304 Grade Stainless Steel, making the door five times stronger than Australian Standard.

Style

Crimsafe Classic has a variety of options to suite your doorway including a fixed solution, hinged or even sliding.

Strength

Reinforced with the proven strength of carbon fibre, the exclusive CF6 Screw-Clamp™ bites down on the stainless steel mesh on impact with a vice-like grip. This is why Crimsafe Classic can withstand an impact that is five times stronger than the level required by the Australian Standard.

Triple Lock

All Crimsafe Doors are fitted with a triple locking system.

Mid-rail

For extra security, mid-rails can come standard with your Crimsafe Classic Doors. Mid-rails help strengthen the resistance of your door's lock against a jemmy attack and protect the hinges by reducing an intruder's ability to lever it from the wall. Mid-rails also form a visual safety barrier.

Colour

There is an extensive range of frame colours and finishes available to customise your Crimsafe Classic Door, giving you the flexibility to match or contrast your existing style.

Cross section of mesh and frame featuring the New Carbon Fibre Screw-clamp 'clip' system.

Benefits

Superior strength against impact

Five times stronger than Australian Impact Standards.

Energy Efficient

Crimsafe reduces solar heat gain by up to 53%. The Tensile-Tuff® security mesh also blocks 62% of harmful UV rays.

Streamlined

Crimsafe Classic offer a sleek design and contemporary style, with no visible screws, fits seamlessly into any home or lifestyle.

Airflow

Crimsafe Classic provides excellent security, keeps the bugs out and allows air to freely flow into your home.

Satisfaction Guaranteed

Crimsafe Classic comes with a 10 Year Standard Warranty, and an extended 12 Year Limited Warranty.
